### Belonging

A few years ago I read in an article showing that an effective transition centres on a child's sense of belonging. They comment that 'a sense of belonging can assist many aspects of children's learning and development, including their emerging sense of identity, wellbeing and engagement with learning.' The article outlines practices that support developing a sense of belonging.

When you read that, I'm sure you are not surprised by the article's findings as you can relate to times when you have felt a sense of belonging and times when you didn't. You've felt the difference to your own wellbeing depending on your sense of belonging.

It's unfortunate that in many situations, a sense of belonging or acceptance can seem to depend on what we contribute or can offer, or how well we seem to fit in rather than just being freely accepted. Often we feel like we need to do something to belong.

It's different with God. We all belong to him without having to offer him something first. We don't have to reach a standard or earn his favour to belong. He accepts us because of his love for us and the forgiveness we have through Jesus. In Matthew 19:14 he says '*Let the little children come to me .... for the kingdom of heaven belongs to them*'. They haven't earned his love but he freely gives it. They, like us, belong to God.

In a world where we all want to belong and be accepted, God is someone you can go to and depend on to be accepted, just as you are. You will always belong to him.

## Transitions

Even though they occur regularly throughout the year, it feels like we are in transition season at the moment as

- this week, our 2026 start of year Foundation students had their first visits to St Mark's by themselves.
- Our Year 6 students are in the process of visiting the secondary schools they will attend in 2026,
- New students in Years 1 to 6 in 2026 are preparing to join us.
- Calendar dates are being transferred from this year to next
- Students are preparing for Step Up day on Monday 8th December, when they meet their 2026 teachers and classmates.

We naturally see a range of feelings as transitions occur as we step into new situations and circumstances. We want to acknowledge the different feelings children have while at the same time building their confidence and ability to work through their feelings and transition successfully.

I encourage you to talk with your children at home, listen to their feelings and then help them see and plan for a successful transition.

## Student medication reminder

I remind families that all medications that students may require at school, including those available at supermarkets such as paracetamols and hay fever tablets are to be handed in to and stored at the office. Students are not to have any medications in their school bags.

## Reimagine Markets

Last week students in Year 5 and 6 lived out our learning principle 'Our learning is real life' through the annual Reimagine Market. This market showcases the learning undertaken in students' HASS, Science and Maths units. Products ranged from crocheted pickles proclaiming 'Our world is in a pickle....' with a sustainable action the consumer could be involved in, to 100 year old Sourdough promoting the making of your own bread reducing food miles, to the creation of funky coloured and shaped crayons made from the leftover bits and pieces collected from classrooms which alternatively would have gone to landfill. The sustainable theme of reuse, repurpose, reduce, recycle and refuse was well met at all stalls. The students should be very proud of the \$1332.10 profit from their sales which will be donated to not for profit organisations, ALWS and OzHarvest. A sustainably rewarding experience for all to engage in!

Hello everyone, today I am talking about the Reimagine Market, some of the products, why we do it, and the process behind it!

We do the Reimagine Market for a couple reasons; the Year 6s do it for sustainability focus in science and Year 5s do it for consumer needs and wants, but also to give the parents and students high quality sustainable products.

For the process, students were told to come up with a product that they could make roughly 15 of in 3 weeks while still accounting for other subjects. Some examples of products were, Pots of polar animals, small Santa hats, dehydrated fruit, crochet pickles, plant tags, sourdough starter, homemade playdoh, plants, succulents, lemon cupcakes, banana bread and cork horses!

## SAPSASA Cricket

After weeks of try outs, Hunter & Samuel were selected in the final 12 students to represent Barker in Adelaide. They played 5 games over 3 days at Para Hills, The Paddocks and Reynella. Both boys played so well, making runs, taking wickets and fielding brilliantly. Congratulations to Hunter and Samuel for displaying great sportsmanship throughout the week, and representing the district with such enthusiasm.

## Year 6 Cornerstone College Orientation

Last Friday, our Year 6 students who are attending Cornerstone College in 2026 had their very exciting orientation day. They started off the day by sorting us into our house teams and introducing us to our home group teachers. After spending our morning in our home group class, with the help of some house leaders we got to have fun and play games on the oval. There was a sack race, tug of war, and tunnel ball.

After a play and a zooper dooper, we got to meet our core class teachers. Next, we did get-to-know-you games with our new classmates and teacher. The teachers set up an amazing race with clues around the school, and an aluminium foil boat-making challenge. It was great fun and we can't wait for high school next year!
